

**Grading:** Your grade will be determined using the following considerations:

| Item                     | Plus (100%)   | Check (70-90%)  | Redo (0%)   |
|--------------------------|---|---|---|
| <b>Accuracy</b>          | No errors were detected in this presentation  | This presentation contained a few errors, but overall was very accurate.  | This presentation did not accurately reflect the science of these topics in multiple instances. |
| <b>Thoroughness</b>      | No important information was omitted.   | Most or all of the important info was covered but more should have been included.                                 | Major topics were omitted that should have been included.                                       |
| <b>Professionalism</b>   | This presentation could be effectively delivered to a group outside of the school.                  | This is acceptable work for high school students but room exists for improvement.                                 | The professionalism of this group did not meet the expectations of this class.                  |
| <b>Group Involvement</b> | Every member was clearly involved with the development of the presentation as well as its delivery. | At least one more group member could have been more involved with the preparation and/or delivery than they were. | Multiple group members clearly could have been more involved.                                   |
| <b>Effort</b>            | Effort exceeds what would be expected of a high school student.                                     | Effort is acceptable for a high school student but room exists for improvement.                                   | Level of effort before and during the presentation should have been greater.                    |
